

Material Safety Data Sheet

National Paint Polyester Super durable Series 2006

Product Code: 2006		Product Name: PS 2006 Series
Powder Type	Recommended Use	Date
Polyester Super durable powder coating	Powder Coating Applied by Electrostatic Spray	10-Nov-16
Section 1: Company and Material Identification & Application		
Manufacturer's Name: National Paint Factories Co. Ltd. Address: Industrial Area 13, Maliha Road, P.O.Box 5822, Sharjah, United Arab Emirates Tel: +971 6 5130000 Fax: +971 6 5340222 Chemical Name: Fusion Bonded Epoxy Powder Coating Dry Paint Physical State: Powder state in dry form Product Application: Powder coating thermosetting dry paint applied electrostatically		
Section 2: Hazardous Identification Not classified as dangerous goods being in powder dry form Based on available information, not classified as hazardous according to criteria in degree of regulations.		
Section 3: Composition / Information on Ingredients

Components	Proportions
BPA/ECH Polymer	50-75%
Extenders/fillers	10-25%
Titanium/Pigments	10-30%
Other Additives	2-5%
Ingredients determined not to be hazardous	to 100%

Section 4: Physical Data

Physical form	Fine powder form
Odour and appearance	No unpleasant odour
Specific gravity	1.2-1.6
Boiling point	Not applicable
Water solubility	Insoluble
Evaporation Rate	Not applicable
Softening point	> 50°C
Particle size	10-90um(>80% laser analyzer)

Section 5: Reactivity Data

Chemical Stability	Stable

Reactivity under the condition

Non-reactive under ambient conditions

Hazardous decomposition products

In complete combustion can produce carbon monoxide and dioxide, nitrogen oxides and smoke

Section 6: Toxicological Properties

Skin contact

Non hazardous

Skin absorption

Not applicable

Eye contact

Irritation

Inhalation acute

Not applicable

Ingestion

Not applicable

Effect of exposure

Not applicable

Section 7: Personal Preventive Measures

Hand protection

General industrial gloves

Respiratory

Face Mask

Eye protection

Protective glass

Foot protection

Industrial shoes

Section 8: First Aid Measures

Eye contact

Flush with plenty of water for at least 15min and take medical care

Skin contact	Wash with water and soap
Ingestion	Seek medical attention
Inhalation	Remove from area to fresh air and seek medical attention

Section 9: Fire Fighting Measures

1. Use fully protective equipments with self-contained breathing apparatus.
2. Dust generated from this product during handling may create a fire. Minimize dusting during handling
3. Keep all equipment clean and properly grounded to avoid static electricity discharge.

Section 10: Storage

Store in dry, as per recommended temp place. Keep away from sources of heat, ignition and direct sunlight. No smoking. Containers that are opened must be carefully resealed and kept upright to prevent leakage.

Section 11: Accidental Release Measures

Clean up:

Clean up spills using an explosion proof vacuum cleaner, then dispose I accordance with local, state, and federal regulations. Avoid sweeping and dust cloud formation.

Section 12: Handling

1. Precautions should be taken to prevent the formations of dust
2. Electrical equipment and lighting should be protected to appropriate standards to

prevent dust coming into contact with hot surfaces, sparks or ignition sources.

3. Preparation may charge electrostatically, always use earthing leads when transferring from one container to another. Operators should wear anti-static footwear.
4. Avoid skin and eye contact. Avoid the inhalation of dust, particles and spray mist arising from the application of this preparation.
5. Keep containers tightly closed. Isolate from sources of heat, sparks and open flame.
6. Smoking and drinking should be forbidden in application area.

Section 13: Disposal Considerations.

Manage or dispose in accordance with local, state, and federal regulations.

Section 14: Hazards Identification

Health Hazards

Based on the composition and performed toxicity studies with the product, the preparation can be considered as an inert dust. It is not harmful.

Environmental Hazards

Not classified as dangerous for the environment. Tests and long term use of powder coatings have in general shown no specific risk. If powder coatings are applied and stove according to the recommendations, emissions will be within the legal limits. The extract of a typical powder coating with rainwater shows that a deposit will not affect ground or surface water substantially.

Section 15: Regulatory Information

Not applicable as goods are not classified under dangerous regulations
